DevTerm Important Reminders

En De Cn Jp

Warning

- Suffocation risk! The product contains small parts.
- Please keep the electronic parts and components away from static electricity, humidity, strong magnetic fields, and avoid outdoor environments to prevent damage.
- Please observe local laws and regulations for the use of Wi-Fi and radio.

Assembly Precautions

- Attention! The product is not a toy, and is unsuitable for users under the age of 11.
- Attention! Users aged between 11 and 16 may only assemble the product with adult supervision.
- Attention! Please read the user guide and follow the steps specified to assemble the product.

Use Of Tools And Precautions

- Modeling scissors or scissors of the right size are essential tools for assembly.
- Take measures to protect yourself from "splashing" to ensure safety while cutting.

- Cut the plastic as smoothly as possible to prevent the risk of skin cuts from sharp edges.
- The assembly does not require professional skills nor tools (glue and soldering iron).
- Previous experience with assembling models may help you put the product together quickly.

Precautions For Use

- DevTerm can only be used or stored indoors at a temperature of 0-35 degrees Celsius.
- Do not use DevTerm's USB port to charge other electronic devices such as smartphones.
- The thermal printer produces a lot of heat while working. Do not touch the printing module to avoid scalding.
- Please ensure a Micro SD card with the correct operating system has been inserted into DevTerm before booting.
- Please use a high-quality phone charger (5V 2A) and USB-C cable to power and charge the product.

Use Of 18650 Rechargeable Li-ion Battery

- Attention! Rechargeable li-ion batteries are NOT included in the package.
You need to buy two 18650 batteries by yourself.
- Please buy 18650 batteries that are certified in accordance to local laws and regulations.
- In the DevTerm battery container, "+" marks the positive electrode, and "-" the negative electrode. Please make sure that the 18650 batteries are inserted in the appropriate directions.
